

Isa[®]
world wide materials

Isa Design selecciona las piedras más exóticas, finas y elegantes buscadas alrededor del mundo para importarlas a Guatemala.

Piedras formadas naturalmente en un proceso de miles de años, durante el cual adquieren colores únicos y vetas que los hacen ver como una verdadera obra de arte.

La búsqueda de la perfección, la pasión, tradición, artesanía y consistencia, nos permite dejar una marca en la actualidad, inspiración e intuición para el futuro.

Los materiales de Isa Design son únicos, originales, exclusivos y diferentes.

Black Forest

A blurred interior scene of a restaurant or dining room. In the foreground, a large, polished wooden table is visible. Behind it, several light-colored upholstered chairs with dark piping are arranged. The background features a dark wood-paneled wall with a mounted animal head (possibly a deer or stag) and a white fireplace mantel. To the left, there are tall, narrow windows with light-colored curtains, and a string of warm-toned lights is visible. The overall atmosphere is warm and sophisticated.
